## Degree courses

Plans and programs for study programs that we offer are created in accordance with the Bologna principles of study, e.g. one semestral subjects, work organized in small groups of students, the constant improvement of teaching methods and overall quality of studies, the creation of learning outcomes for the overall qualification and subject, student evaluation of the quality of teaching, etc .

The teaching process on Logos is organized as a one-cycle study system with the duration of 3 or 4 years, according to the positive legislations.

- The first cycle leads to the academic title for undergraduate study finished [the degree of Bachelor] or equivalent, achieved after a three-year lasting study which started after graduating high school education that lasted 4 years. Finishing this study the students achieve 180 ECTS credits.
- The first cycle leads to the academic title for undergraduate study finished [the degree of Bachelor] or equivalent, achieved after a four-year lasting study which started after graduating high school education that lasted 4 years. Finishing this study the students achieve 240 ECTS credits.

For acquiring the qualification of the first cycle, it is necessary to study and work in the volume

adequate and equal to 180- 240 ECTS credits divided during the period of 3-4 years of study. Studies at Logos finish off by acquiring certain qualifications connected to basic regulations of the I cycle, based on the learning outcomes and ECTS credits gained, conformed with the approximate high education qualification on European ground, the Dublin descriptors etc. The National Qualification Framework for high education in BIH is being developed.

One study semester worth is 30 ECTS credits for each cycle.

In accordance with the positive legal resolutions and our registration, we don't perform study programs of the second and third cycle.

Students evaluate the quality of the teaching process systematically and periodically.

Due to the fact we are a young higher educational institution in Bosnia and Herzegovina and we are aware of how quality study programs are important, our goal is their constant improvement.
